

The formula for maximum performance.

Specially developed for hard-working engines.

KOHLER®

KOHLER® oil ensures maximum performance.

KOHLER universal engine oils are blended with extra heavy-duty, high-temperature additives that extend engine life beyond levels provided by conventional automotive engine oils. KOHLER oils provide maximum protection to keep you on the job.

Engine protection.

KOHLER oils are specially formulated to protect against thermal breakdown that can occur when engines are operated for long periods under heavy loads and high operating temperatures. Our special combination of detergent additives offer protection against oxidation, viscosity breakdown and acid contamination from combustion by-products, wear and friction.

Reliable versatility.

KOHLER oils are ideal for gasoline, gaseous fuel and diesel engines (both air- and liquid-cooled) in virtually any application: lawn mowers, garden tractors, commercial landscape, construction and farm equipment, automobiles and trucks.

KOHLER 10W-30.

This multi-viscosity oil pumps easily to provide instant lubrication of overhead valve components during start-up. Providing the full protection of an SAE-30 oil at operating temperatures, KOHLER 10W-30 universal oil is extremely resistant to viscosity shearing and stays in grade through its normal service life.

- An excellent "fleet" oil to use in every piece of equipment.
- Exceeds API service rating SL. Also exceeds MIL-2104E and MIL-L-46152E, Mack E/O, K/2 Caterpillar T0-2, Cummins NTC 3000 and Allison C-4.

KOHLER SAE 30.

Providing benefits similar to KOHLER 10W-30 oil but in a straight-grade SAE 30 formula. KOHLER SAE 30 provides instant lubrication while providing full protection at operating temperatures.

- Extremely resistant to viscosity shearing.
- Ensures maximum performance and extends engine life.
- Exceeds API service ratings SL as well as MIL-2104E and MIL-L-46152, Mack E/O, K/X, Caterpillar T0-2, Cummins NTC 400 and Allison C-4.
